

State of New York
County of Suffolk

I, Merrill Simon, being duly sworn deposes and says:

I reside at 3625 North Country Club Drive, Aventura, Florida.

I am the editor of the Magnetic Resonance News, a bi-monthly newspaper, published in Farmingdale, New York. The purpose of this newspaper is to provide information on Magnetic Resonance Imaging for the medical profession.

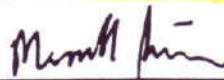

I had received information from Professor Raymond Andrews, of the University of Florida, a Professor Ernst in Switzerland, a Professor Yalow, a research Professor at the Veterans Administration Hospital and a Dr. Henry Wallman, a Professor Emeritus from the Karolinska Institute in Sweden and an advisor to the Nobel Committee.

Each of them communicated to me that Dr. Erik Odeblad of the University of Umea in Sweden did work on investigating cancer tissues utilizing Nuclear Magnetic Resonance that preceded the work of Dr. Raymond Damadian.

Dr. Damadian's claim has been that he was the first to discover the abnormal cancer Nuclear Magnetic Resonance signal.

As a result of these claims, I decided to call Dr. Odeblad myself. I thereupon on September 1, 1988 called Dr. Odeblad at 46-90-128639 which is his home phone number in Sweden. His wife answered the phone and put him on with me. The total phone call was approximately fifty (50) minutes.

I said to him that I had heard that he was the first to utilize Nuclear Magnetic Resonance in cancerous tissues. He stated that this statement was not correct, but that he had used Nuclear Magnetic Resonance for investigation of mucous in the cervix. I asked him who is the person or persons that did the basic work on cancer using Nuclear Magnetic Resonance. He said clearly, that there are a number of people, however, the most prominent of all, and who did the original work, was Dr. Raymond Damadian. I then asked him what kind of work he did on cancer, and he replied that he did some work measuring the absorption of Radio Frequency in cancer tissue but that this was not Nuclear Magnetic Resonance.

Merrill Simon

Sworn to before me this
7th day of March, 1989
